

SEC'Y GLASS TO BECOME SENATOR

Will Succeed Late Sen. Martin of Virginia — Appointed by Governor.

WASHINGTON, Nov. 17.—Carter Glass will resign his post as secretary of the treasury to accept the senatorship from Virginia offered him by Gov. Davis, it was stated authoritatively at the white house today.

Glass' final decision was made after Pres't Wilson strongly advised that he accept the senatorship. Glass and J. P. Tumulty, secretary to the president, conferred Saturday, it was learned.

It has been known for some time that Glass preferred a legislative post to one in the cabinet. Another consideration was that while Glass is by no means a sick man, he does not enjoy the most rugged health and the treasury post at this time is one of the most strenuous in the administration.

Those things, in addition to a belief that Glass will be a considerable addition to the administration strength in the senate are believed to have influenced him in his wish to leave the cabinet.

Consults Delegates.
Despite the need of every available democratic vote in the senate, Glass in all probability will not resign from the treasury post and take the senatorial oath for a week. He is said to have consulted the Virginia delegation and to have been informed by them that there was no immediate need of assuming his senatorial duties.

The president's wish that Glass accept the seat in the senate seemingly demonstrated he had a successor selected. There was no word from the white house today, however, as to the choice.

Paul Warburg, formerly of the federal reserve board, would not accept the secretaryship if tendered, it was learned at the white house. Charles Sumner Hamlin, Boston, a member of the federal reserve board, stands high in the president's estimation and is very likely to be offered the treasury portfolio, it was learned.

Considers Sherley.
Swagor Sherley, director of finance in the railroad administration, formerly a member of congress and chairman of the house appropriations committee, also is under consideration by the president.

Oscar A. Price, now located in New York, where he is president of the United Artists' corporation, could have the office if he desired, it was reported. He was active in Liberty loan drives.

Others prominently mentioned are Assistant Sec'y of the Treasury Leffingwell, Sen. Owen, Oklahoma, a high authority on banking and former chairman of the senate banking committee; Daniel Reper, commissioner of internal revenue and Walker D. Hines, director general of railroads.

W. G. McAdoo, former secretary of the treasury, has been mentioned, but it is not believed the president is considering him. Bernard Baruch is highly esteemed by Wilson but it is known he does not desire a cabinet position.

Hamlin, however, is "high man" on the list of eligibles now before the president. It was learned on good authority, and probably will be appointed.

MIDDLE WEST FACES FUEL FAMINE TODAY

By United Press:
CHICAGO, Nov. 17.—Fuel famine faced the middle west today. With the strike of coal miners entering the third week, the reserve supply of coal was growing small and the pinch was felt in many cities.

Appeals for coal from the Dakotas, Montana and the northwest generally, flooded the offices of the regional fuel administrations.

The railroad's supply of coal was reported low. The Chicago, Milwaukee and St. Paul railroad reported the cancellation of four trains leaving Chicago. Several other trains leaving Milwaukee and other points along the route also were cancelled.

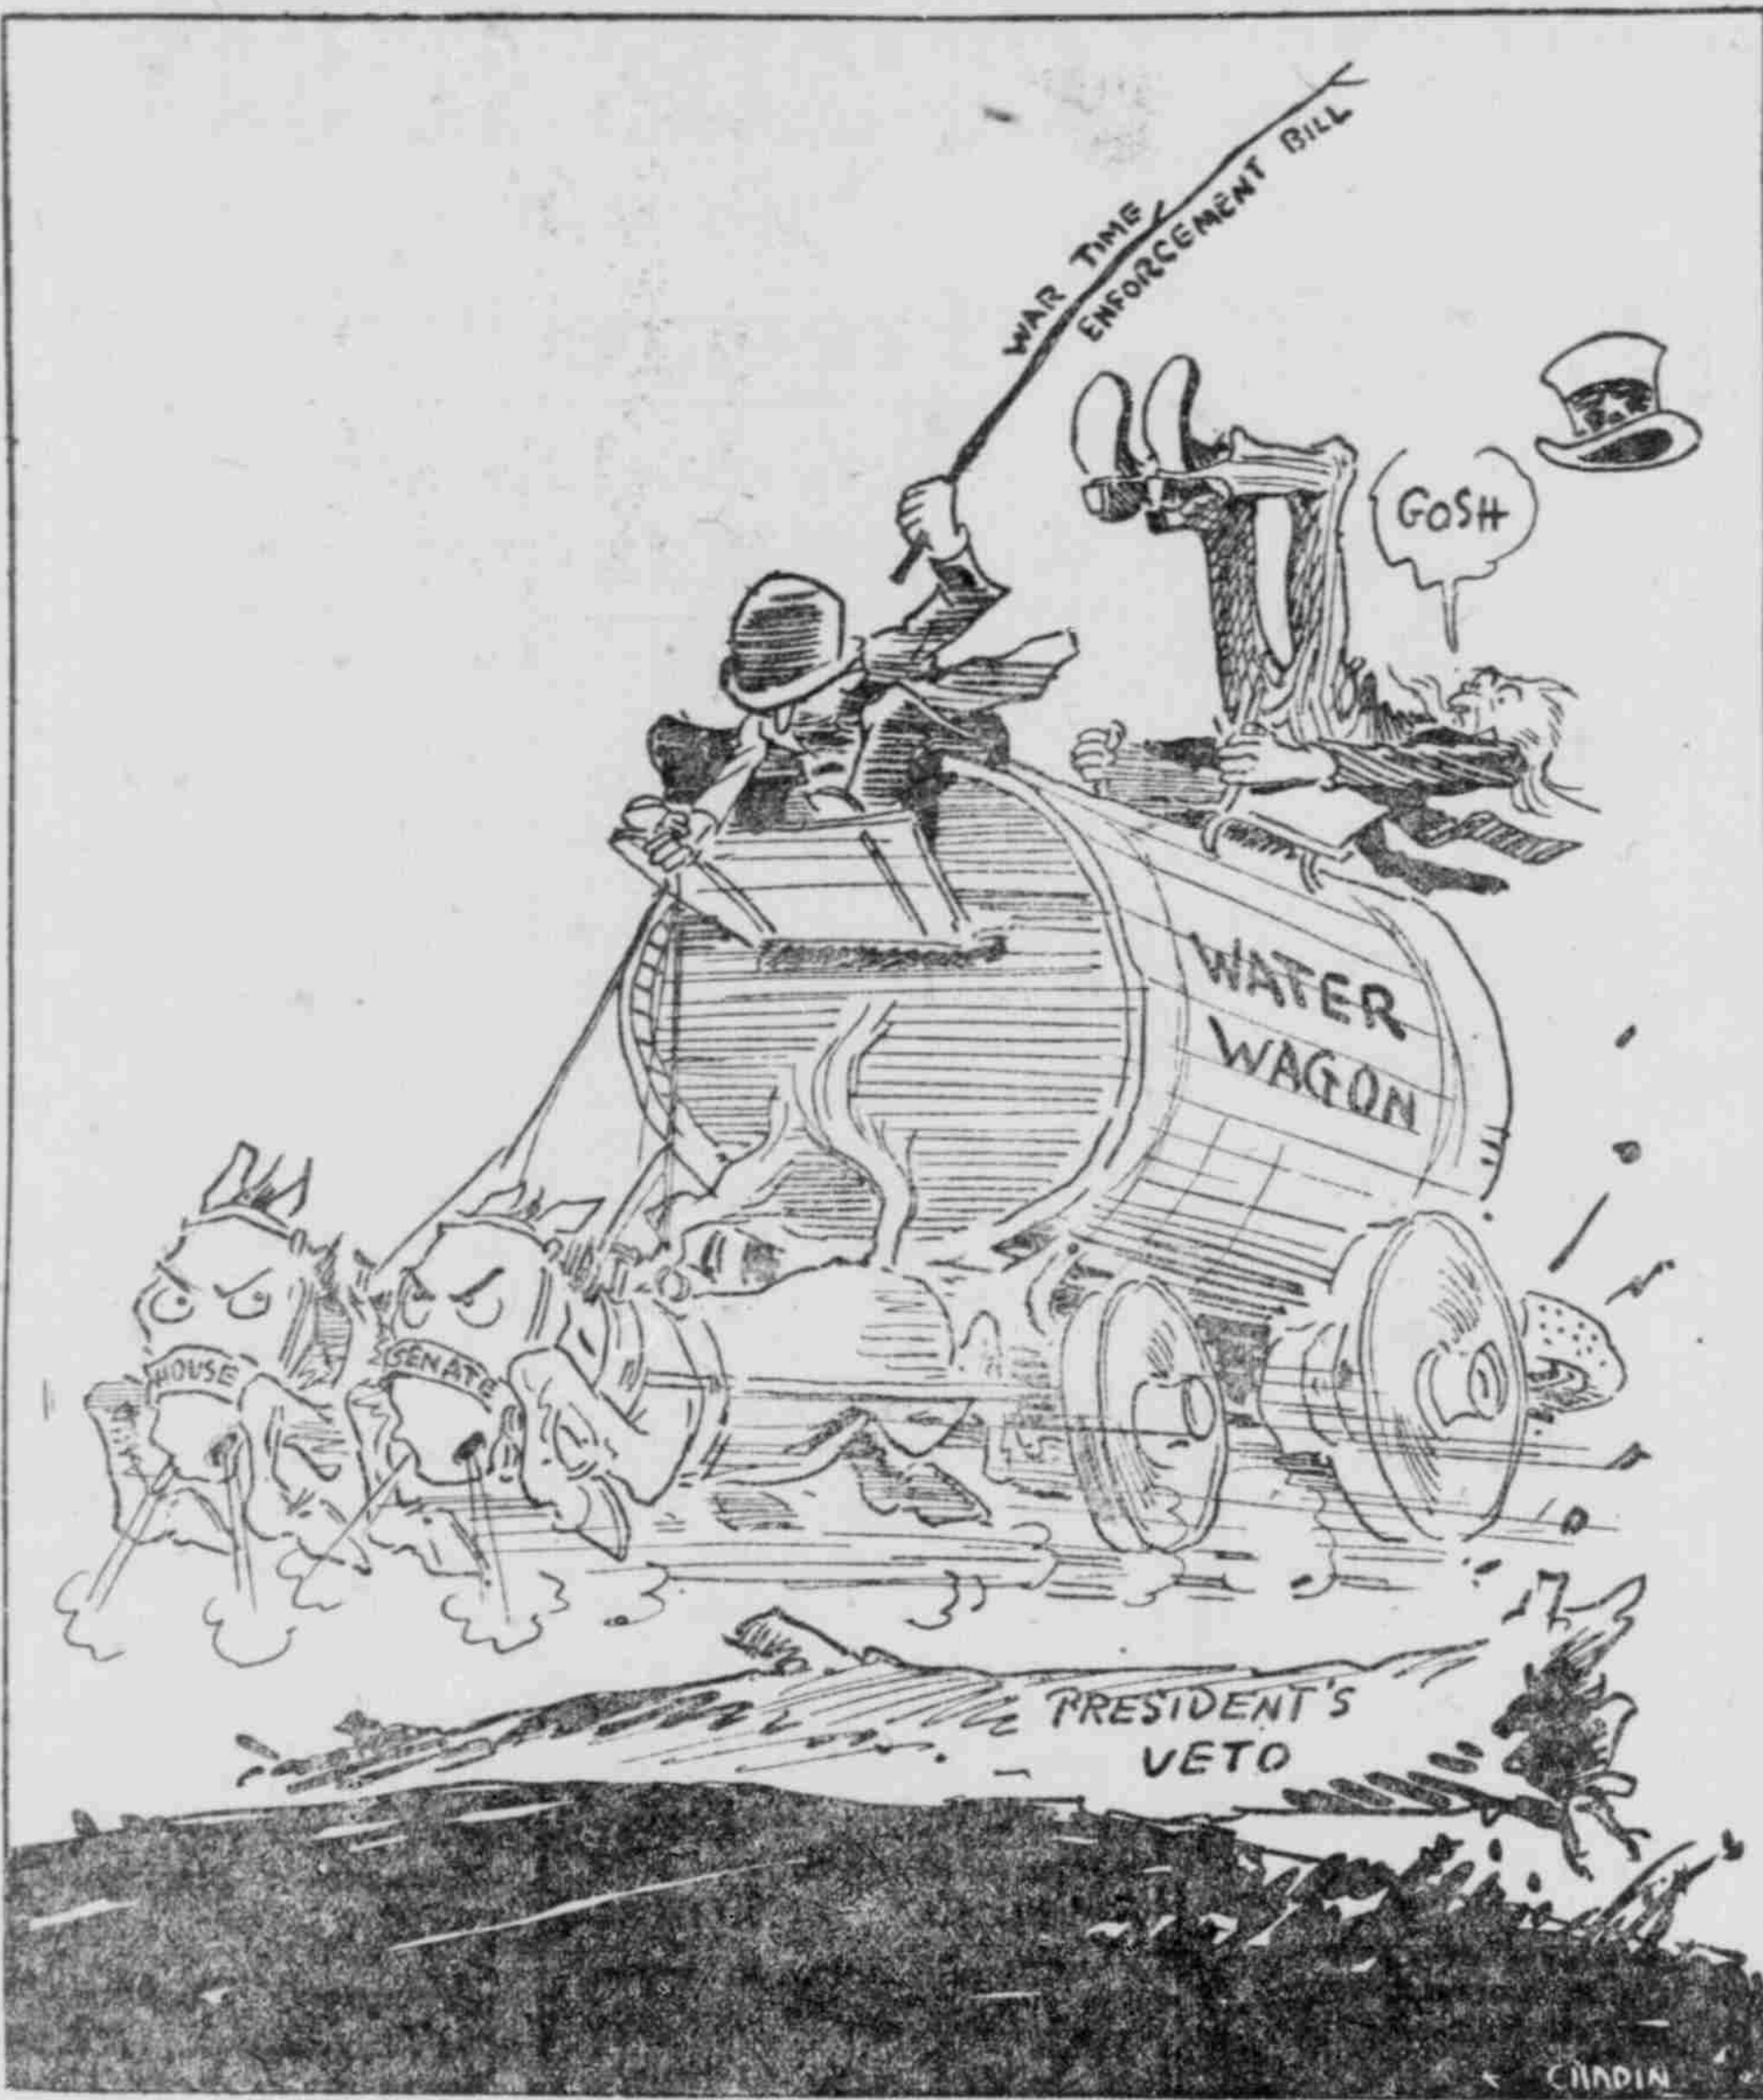

Practically no union miners had returned to work until today in the bituminous mines of the west since the strike call was rescinded. There were some indications that a few mines might resume today but the general impression among both operators and miners was that the men would remain out until the conclusion now in progress in Washington.

ATTEMPT TO KILL FOUR NEGROES

Lynching Follows Assault and Robbery of Moberly, Mo., Farmer.

By United Press:
MOBERLY, Mo., Nov. 17.—One negro was dead, another missing and two others were safely back in jail Monday following an attempt to lynch them.

The lynching attempt was made after the four negroes were charged with holding up and beating Edward Thompson, a farmer.

The dead negro had not been identified. He was shot to death when he bolted from a crowd of more than a thousand masked men. A noose had been placed about his neck and he had been hauled up when the limb of the tree broke.

Limb Falls.
The crowd attempted to hang the four negroes at the same time. All were strung up on the same limb and it came crashing down.

The negroes said they were from Chicago. They gave their names as Alvin Richards, George Adams, Sanford Taylor and James Anderson.

While the crowd started in pursuit of one of the negroes, said to be the leader of the highwaymen, the three others escaped. County authorities located two and a third was arrested late Sunday night.

The negroes had been held in the jail at Macon following a threat at lynching Friday night after their arrest. A mob went to Macon Saturday night in automobiles and threatened to dynamite the jail unless the prisoners were turned over. Sheriff Stamper complied. The negroes were rushed back to Moberly where the lynching attempt took place.

FRANCE DEFEATS ALL RADICAL CANDIDATES

By United Press:
PARIS, Nov. 17.—France has repelled the bolshevik challenge with a sweeping defeat of radical candidates.

Returns up to 2:40 o'clock this afternoon from yesterday's election for the chamber of deputies covering about one-third of the total vote cast, showed the radicals have lost ground throughout the republic.

Results from 27 districts showed the republicans had won 10 seats, progressives nine, and liberals, ten. Radicals lost 17 seats, socialists, 10, and conservatives, two, the early returns showed.

M. Franklin-Thomas, chairman of the foreign affairs committee of the chamber of deputies, has been defeated. He had advocated cession of all territory to the west bank of the Rhine to France.

Albert Thomas and Prince Murat, in whose home in Paris Pres't Wilson lived during the early sessions of the peace conference, have been elected, early reports indicated.

Secure seats early for the big anniversary bill at the Orpheum all week. Change of program Thursday. 3733-20

How quickly Resinol Soap cleared my skin

"Do you remember, Marie, how bad my skin looked a short time ago? I was so miserable about it, I never really enjoyed myself. I wouldn't have believed what an improvement Resinol Soap could make. It is wonderful how it gets right into the pores and cleanses them from little particles of dust, etc. It makes my skin feel so refreshed, too, because it has such a wholesome odor, and is so soothing. I wish everybody would try it."

LARGE GASOLINE TANK EXPLODES

Quick Work of Fire Department Prevents Spreading of Burning Oil.

Explosion of a gasoline tank of the Sinclair Oil Co., Lafayette Blvd. and Broadway, shortly after 1 o'clock Monday afternoon caused damages amounting to approximately \$1,000.

Miss Mary Albreck, an employee at the offices of the company, was slightly cut about the face and hands when she jumped through a window upon being frightened at the explosion.

The explosion occurred in a tank used by the company in filling automobiles with gasoline. The quick arrival of the fire department prevented the spread of the flames of burning gasoline to the surrounding buildings. The roof of the shed over the tank was blown away, and the tank was completely destroyed.

Acid-Stomach Makes Millions Old Before Their Time

The famous scientist, Prof. Metchnikoff, declared that people generally become decrepit—feeble, aged—years and years before their time—that a person ought to live well over a hundred years. He proved that the toxic poisons which form in the intestines and cause auto-intoxication had more to do with shortening life than anything else. Clean out these poisons and there is no reason why human beings should not live, hale, hearty, strong and vigorous, a hundred years or more. Such is the doctrine as taught by the noted Metchnikoff.

What causes those toxic poisons—where do they come from—how do they get into the intestinal tract? Science gives us an answer in one word—Acid-Stomach.

Acid-Stomach causes food fermentation; and it is this mass of partially digested, sour, fermenting food passing through the intestines that creates toxic poisons that are absorbed into the blood and carried into every part of the system, causing a long train of diseases and making millions of men and women feeble, haggard and old looking before their time when by right they should be strong, healthy, in the prime of life.

Common sense tells us that in order to stop those toxic poisons forming in the intestines, you must get rid of the Acid-Stomach; just as

dentists tell us that we must get rid of acid-mouth to keep the teeth from decaying. When acid forms in the mouth it eats right through the hard enamel of the teeth. Imagine, then, the ill effects of Acid-Stomach to the entire system!

A modern way has been found of getting rid of Acid-Stomach so quickly, naturally, easily, that it seems almost unbelievable.
